

I am grateful that K-Love Radio is heard in my area. I am able to hear uplifting music and news. It helps me to stay positive and to pass that on. I am also able to hear about activities that happen in my area. If K-Love were to be replaced, the choices in this rural area would be limited. National programming allows for diversity that can't be supported in small towns alone. As a teacher, I worry about the music children have to listen to. K-Love gives parents a choice for clean lyrics that don't expose their children to swearing, sex, and violence. Please don't replace my radio station. Thank you.
